

FILM DATA SHEET – PX 600 Silver Shade The new Impossible Instant Film

Impossible proudly presents: PX 600 Silver Shade, a completely new Integral Film, customized for all classic Polaroid 600 cameras. Presented in the First Flush Edition, this is the very first chance to taste the new experimental flavor of Instant Photography by Impossible.

The new PX 600 Silver Shade First Flush Edition proves to be a convenient product for everyday use. It is furthermore manipulable and features a surprising potential of characteristics, tones, moods and astonishing results.

Now this material is ready for the public, carefully explained and supported by a detailed online user manual and manipulation guideline (www.the-impossible-project.com/px) for creating the most outstanding instant pictures in history.

PX 600 Silver Shade film is a medium contrast high definition Integral Film, carefully adjusted for optimized results when used with 600 cameras.

It renders a beautiful black&white characteristic with a lot of details, especially in the darker areas, combined with a highly sensitive overall exposure performance and sensitivity to processing temperature.

PX 600 Silver Shade is balanced for daylight and flash bar exposure.
